	Examiner Anu Ramana	Art Unit 3733	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on November 27, 2007 has been entered.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 12, 16, 18-19, 21 and 22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 12, line 9, the structure recited by the limitation, "have narrowing widths away from the first and second arcuate ends" is unclear since adequate structure and/or reference axes or planes have not been recited to define the recited "widths."

In claim 12, lines 8-9, the limitation, "substantially perpendicular" renders the claim vague and indefinite since it is unclear with respect to what axis/axes or structure the flanges are substantially perpendicular to.

In claim 18, line 10, it is unclear how the flanges are substantially perpendicular to one another since they are opposite one another along the longitudinal axis making them parallel to one another.

In claim 18, line 11, the limitation, "having narrowing widths toward one another along the longitudinal axis" render the claim vague and indefinite since adequate structure and/or reference axes or planes have not been recited to define the recited "widths."

In claim 22, line 7, the limitation, "substantially perpendicular" renders the claim vague and indefinite since it is unclear with respect to what axis/axes or structure the flanges are substantially perpendicular to.

Appropriate correction is required.

Allowable Subject Matter

Claims 12, 16, 18-19, 21 and 22 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
